

IOlux

INDOOR / OUTDOOR
MUSICAL HAND LAMP COLLECTION

IOlux is a brand of LUMEN CENTER ITALIA

|o|lux

IT IOlux è una collezione di lampade innovative pensate da VillaTosca Design per LUMEN CENTER ITALIA. Luce e suono, il design fresco, a tratti ludico e gioioso, il prezzo ragionevole ne fanno una collezione di prodotti fruibili dal grande pubblico.

Il *concept* scaturisce da una ricerca iniziata circa 18 anni fa da VillaTosca Design sulle sinestesie che vide la presentazione di Musicolor a Milano nel 1999.

Il lavoro di sviluppo del *concept* e la sua realizzazione in chiave moderna ha visto coinvolti, oltre che il team di VillaTosca Design, i designer Denis Santachiara e Giulio Iacchetti.

IOlux vuole essere l'inizio di un lavoro di ricerca sulle nuove tendenze, sui modi di fruire spazi e stagioni con i loro colori, i loro suoni, i loro profumi.

FR IOlux est une collection innovatrice de lampes pensées par VillaTosca Design pour LUMEN CENTER ITALIA.

La lumière et le son, le design frais, par intermittence joueur et joyeux, son juste prix en font une collection de produits utilisables par le grand public. Le *concept* vient d'une recherche commencée depuis plus ou moins 18 ans par VillaTosca Design, à propos des synesthésies, qui fit partie de la présentation de Musicolor du 1999 à Milan.

Le travail de développement du *concept* et sa réalisation de façon moderne ont vu impliqué, non seulement l'équipe de VillaTosca Design, mais aussi les designers Denis Santachiara et Giulio Iacchetti.

IOlux veut devenir le début d'une recherche sur les nouvelles tendances en vogue, sur les modes d'emploi des espaces et les saisons avec leurs couleurs, leurs sons, leurs parfums.

EN IOlux is an innovative collection of lamps designed by VillaTosca Design for LUMEN CENTER ITALIA. Light and sound, the fresh design, at times playful and joyful, the reasonable price make it a collection of products usable by the general public.

The *concept* stems from a research started about 18 years ago by VillaTosca Design on synaesthesia which saw the presentation of Musicolor in Milan in 1999.

The work of development of the *concept* and its realization in a modern way has involved, not only the VillaTosca Design team, but also the designers Denis Santachiara and Giulio Iacchetti.

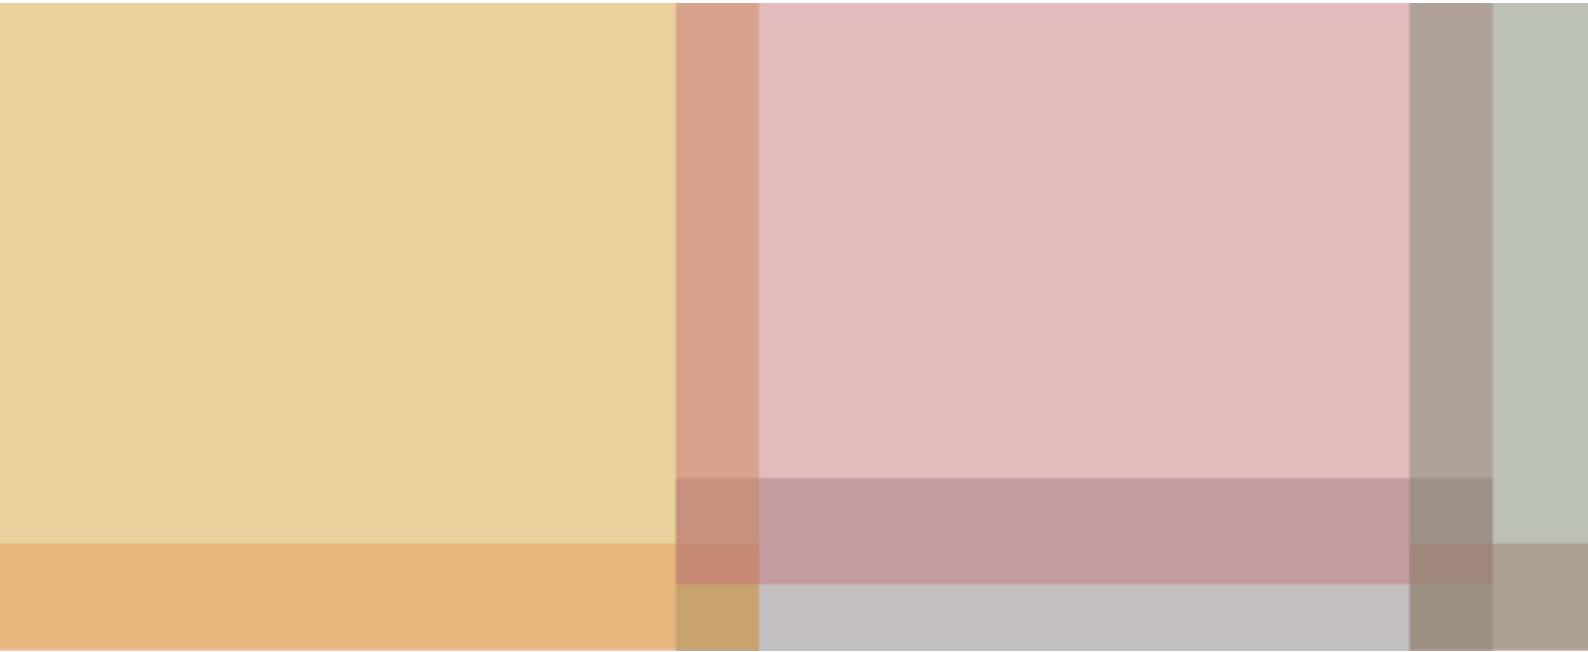

IOlux wants to be the start of a research project on new trends, ways to benefit areas and seasons with their colours, their sounds, their scents.

DE IOlux ist eine Sammlung von innovativen Lampen, die von VillaTosca für LUMEN CENTER ITALIA gedacht wurden. Licht und Ton, frisches Design, manchmal spielerisch und lichtvoll, der vernünftige Preis macht sie eine Produktsammlung für die breite Öffentlichkeit zugänglich.

Der *concept* stammt aus einer Untersuchung, die von etwa 18 Jahren von VillaTosca Design begonnen wurde, die sich mit den Synästhesien befasst, die die Präsentation von Musicolor in Mailand im Jahr 1999 sah.

Die Entwicklungsarbeit des *concepts* und seine Realisierung in einer modernen Art und Weise haben die designer Denis Santachiara und Giulio Iacchetti beteiligt gesehen, außer dem Team von VillaTosca Design.

IOlux will der Anfang einer Untersuchungsarbeit sein, die sich beschäftigt mit den neuen Neigungen, mit den Möglichkeiten von Raum zu profitieren, mit den Farben jener Jahreszeiten, mit ihren Geräuschen und Gerochen.

INDOOR / OUTDOOR
MUSICAL HAND LAMP COLLECTION

IT Collezione di lampade musicali a LED RGBW e speaker integrato da 10W per riprodurre brani musicali via bluetooth da dispositivi mobili. La luce bianca o colorata modulabile dal ritmo della musica, rende queste lampade il complemento ideale per il relax e l'intrattenimento indoor e outdoor. Realizzate in polietilene (PE) ad alta densità e certificate IP44. Sono senza cavo e quindi facilmente trasportabili ovunque; funzionano a batteria ricaricabile con una durata massima di utilizzo pari a 8 ore. In dotazione il telecomando che ne permette il controllo a distanza degli effetti di luce, del colore e delle funzioni audio.

NOTA:

La funzione Bluetooth del tuo smartphone attiva un solo apparecchio. Dissociare l'apparecchio al dispositivo "Light speaker" per permettere una nuova associazione da un altro smartphone.

Il presente catalogo annulla e sostituisce tutti i precedenti.

La ditta si riserva la facoltà di modificare, in qualsiasi momento e senza preavviso, le caratteristiche tecniche dei prodotti illustrati nel presente catalogo. La citazione di prodotti o dei nomi di altre società o enti è a solo scopo informativo e non costituisce alcun impegno o raccomandazione.

I prodotti IOlux sono modelli depositati.

FR Collection de lumières musicales à LED RGBW et hautparleur intégré de 10W pour reproduire de la musique par bluetooth dès les appareils mobiles. La lumière blanche ou colorée, qui est réglable selon le rythme de la musique, fait de ces appareils l'ajoutée idéale pour se détendre et s'entretenir indoor et outdoor. Réalisées en polyéthylène (PE) à haute intensité et certifiées IP44. Ces appareils sont sans câble et donc elles sont facilement transportables n'importe où; elles fonctionnent à batterie rechargeable, avec une durée d'utilisation maximum de 8 heures. Télécommande fournie qui en permet le contrôle des effets des lumières, de la couleur et du son, à distance.

NOTA:

La fonction Bluetooth de ton smartphone branche un seul dispositif. Déconnecter "Light speaker" dans le menu Bluetooth de votre Smartphone afin de permettre la connection à un nouvel appareil.

Ce catalogue annule et remplace tous les précédents.

La firme se réserve la faculté de modifier, n'importe quand et sans préavis, les caractéristiques techniques des produits illustrés dans le présent catalogue. La citation de produits ou de noms d'autres sociétés doit être considérée exclusivement à titre d'information et ne constitue ni une suggestion, ni un engagement.

Les produits IOlux sont des modèles déposés.

EN Collection of music LED lamps with RGBW and 10W built-in speaker to play music via Bluetooth from mobile devices. The white or coloured light follows the rhythm of the music and makes these lamps ideal pieces of furniture for relaxation, indoor and outdoor entertainment. Made of polyethylene (PE), high density and IP44 certified. They have no cable and therefore easily portable anywhere; these lamps work with rechargeable battery with a maximum duration use of 8 hours. Equipped with remote control that allows the distant control of lighting effects, colour and audio features.

REMARK:

The Bluetooth function of your smartphone activates a single device. Disconnect "Light speaker" in the Bluetooth menu of your Smartphone by selecting "forget this device". You will then be able to connect a new device to your Smartphone.

This catalogue supersedes all previous issues.

The manufacturer has the right to modify the technical characteristics of the products illustrated in this catalogue in any time and without notice. Current data will be supplied on request.

Otherwise mentioned trade names products do not oblige to use them as such. IOlux products are registered models.

DE Kollektion von musikalischen LED RGBW Lampen und integrierter Lautsprecher von 10W um Musikstücke über Bluetooth aus mobilen Geräten zu spielen. Das weiße oder bunte Licht folgt den Rhythmus der Musik und macht diese Lampen die ideale Ergänzung für die Entspannung und die Innen- und Außen Unterhaltung. Sie wurden aus Polyethylen (PE) hoher Dichte gefertigt und IP44 zertifizierte. Sie haben kein Kabel und dadurch werden sie einfach transportiert; sie funktionieren dank einer wiederaufladbaren Batterie, deren höchste Haltbarkeit 8 Stunden gleicht. Mitgeliefert wird auch die Fernsteuerung, die die Fernkontrolle erlaubt der Lichtwirkungen, der Farben und der Tonfunktionen.

BEMERKUNG:

Die Bluetooth-Funktion des Smartphones aktiviert ein einzelnes Gerät. Loggen Sie das Gerät an die "Light-Speaker" Gerät aus, um eine neue Verbindung von einem anderen Smartphone zu ermöglichen.

Mit dem Erscheinen dieses Katalogs verlieren alle vorausgegangenen Unterlagen ihre Gültigkeit.

Die Firma behält sich das Recht vor, jederzeit und ohne Vorankündigung, Änderungen an die technischen Merkmalen der im vorliegenden Katalog dargestellten Produkte anzubringen. Aktuelle Daten stellen wir auf Anfrage gerne zur Verfügung. Andere erwähnte Marken oder Produkte verpflichten nicht zum Gebrauch oder Kauf derselben. Die Produkte von IOlux sind geschützte Modelle.
